## SUMMARY

A forward-thinking professional renowned for crafting technological solutions that effectively tackle pressing challenges. Fueled by a deep passion for leveraging technical expertise to make substantial contributions, I am dedicated to delivering scalable solutions for intricate problems. Keen to apply my drive and extensive experience to actively contribute to meaningful projects and initiatives.

## PROFESSIONAL EXPERIENCE

### Sycom Integrated Solutions

### Fullstack Software Engineer

Dec 2021 - Present

- Developed and maintained robust cybersecurity applications using Node.js, Python, and Express.js, ensuring secure and efficient back-end solutions.
- Implemented cutting-edge front-end interfaces using JavaScript, React, and TypeScript to enhance user experience in the cybersecurity domain.
- Collaborated with a cross-functional cybersecurity team to design and optimize cybersecurity portfolio management processes.
- Utilized Cypress and Jest for automated testing procedures, reducing software defects and enhancing the overall security of applications.
- Integrated real-time updates and improved data visualization in cybersecurity applications through the implementation of React (TypeScript) components and modules.
- Conducted regular system maintenance, achieving a 99.9% application uptime rate, and provided timely support for issue resolution in the cybersecurity context.
- Developed and executed cybersecurity-specific automated testing procedures using Postman for API testing.
- Engaged in continuous learning and staying updated on the latest cybersecurity trends and technologies to enhance the effectiveness of software solutions.

### i-Data Power

### Software Engineer(Internship)

June 2019 - June 2020

- Worked in a team of 4 as a back-end engineer to design and implement a human resource management system application using Django and pyodbc to access SQL Server.
- Developed a (DP-SMS), the company's flagship app for managing students' online learning which increased client satisfaction from 60% to above 90%.

## TECHNICAL SKILLS

**Programming Languages:** HTML5 & CSS, Python, React, React Native, JavaScript, Typescript

**Database:** PostgreSQL, MongoDB, MySQL

**Backend:** Nodejs, Express.js, Flask, Spring, Django

**Engineering Software:** HYSYS, Star CCM+, MATLAB, Polymath

## EDUCATION

### MSc. Chemical Engineering and Process Management

Sept 2020 - Sept 2021

London South Bank University

### BSc. Chemical and Polymer Engineering

Feb 2014 - April 2019

Lagos State University

## OTHER SKILLS

Attention to detail

Resourceful

Courteous

Problem Solver

Organized and Efficient

Committed Team Player

Excellent Communication Skills

Self Motivated
